- Insert 1) AA size battery (not included) by twisting the edge around the orange on-off button
- Ultra-bright LED light
- Zoom lens: zoom out for narrow concentrated beam and zoom in for broad beam illumination
- Press the on-off button twice, quickly, for strobe rescue or signaling beam

4. Tactical Defense Pen

- Functional pen with clip
- Made with tungsten steel for superior strength
- Use sharp head as a survival weapon for self-defense against animals or intruders
- Break a windshield or barrier in an emergency

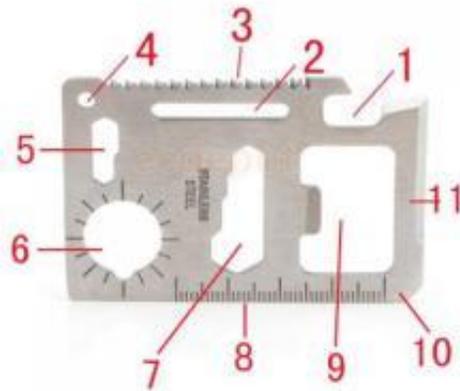

5. Compass

- 360 degree rotating bezel for easy navigation & orientation
- Waterproof and shake-proof
- Solar luminous display for clear night viewing. Place under lamp or sun light for an hour or more to activate this feature for night time use.

6. Saber Card (sometimes called a Swiss Card)

Comes in a protective case sheath to guard against sharp edges

1. Can Opener
2. Butterfly Screw Wrench
3. Saw Blade
4. Key Chain Hole
5. 2 Position Wrench
6. Direction Auxiliary Indicator (Sun Compass)
7. 4 Position Wrench
8. Ruler
9. Bottle Opener
10. Flat Head Screwdriver
11. Knife

7. Survival Saw

- Sharp wire teeth: use with caution
- Use a bow-like sawing action to cut firewood or debris
- Removes small to medium size fallen tree limbs

8. Fire Starter with Flint and Scraper - 4 Functions

- Multi-function fire starter includes ruler, can opener, flint stone and scraper
- Steel flint stone rod has a butterfly handle for easy grip

Instructions:

- Remove the tied cord from the scraper for easy handling
- With first use, prepare the flint stone by using the serrated end of the scraper to remove the black coating on the rod for it to work properly
- Build your fire including tinder made from twigs, dry leaves, cotton ball or dryer lint, etc. Note: petroleum jelly dabbed on a cotton ball ignites easily and will burn for 5 or more minutes.
- Aim the rod close to the tinder, and throw sparks into it by running

the scraper quickly and firmly down the rod. For difficulty with creating a spark, adjust the scraper pressure used.

- Once your fire has started, add more tinder and branches to sustain your fire.

9. Multi-Function Knife

- Multi-functions include knife, can opener and 3 position wrench
- Folds into closed position for sharp edge protection

10. Whistle

- Made with strong aluminum alloy
- Extremely loud pitch for search and rescue

11. Mini-Light and Keychain

- Button battery included
- Great for a quick close up look at anything
- Convenient small size yet functional bright light

12. Fishing Line and Hooks

- Two included
- Fishing line length: 2 feet
- For extended length, tie to trimmed branch or stick
